Quan	Variety	Price

Quan	Variety	Price
	Postage and handling	$1.00
	Special Del. or Airmail	
	Total (check or money order)	

CUTTINGS have been set down with the expectation that they will be ready about April 15th or May 1st. However, since we carry a large number of varieties that perform differently, it is difficult to have all of them ready at the same time. We prefer to send cuttings that are ready for separation soon as they adjust to your conditions. Therefore, in isolated cases it may take a little longer to fill the order, but it will be filled with full clumps. Some of the 1963 releases will not be ready until June. May we suggest, however, since the demand for new releases is heavy that you place your order early. We specialize in rooted cuttings, but some of our customers prefer plants. If this is your preference please indicated it on your order and if we have well established plants at the time of shipping we will send plants in place of cuttings. All our stock is government inspected, grown in sterilized medium with every precaution taken to insure insect and disease free plants.

MINIMUM ORDER on this price list is $3.50. Please add $1 for postage and handling, $1 for airmail for under 12 cuttings $2 over 12 cutting, 50¢ if you wish special delivery. Airmail is recommended for all shipments going west of the Mississippi.

SUBSTITUTES are made only if you indicate it on your order. If a variety is not available for the current shipping season a refund is made. It does make it easier to fill an order promptly if you do list substitutes. Fresh cut leaves in the 50¢ & 75¢ groups may not always be in stock so please name substitutes.

DESCRIPTIONS we give in this list are based on our growing conditions which are average using flourescent lights and similar to the conditions in your own home. Growing conditions, light intensity and fertilizers all play an important part in the final results achieved. On rare occasions you will find a variety described as dbl to bloom single on the first bloom, but give it chance it will bloom double. Sometimes the multicolored, fantasy and edged blooms are variable. Hybridizers test the varieties through three generations and in our experience we have found them to propagate true, but no guarantee can be made.

SHIPMENTS are made during mild weather. Extreme heat or cold will hold up shipping. Temperatures over 90° or below 40° are injurious.

TO OUR FRIENDS ABROAD: One trip approximately June 30 and October 15 will be made to customs to clear foreign shipments. We ask that you have your order in at least six weeks before these dates together with documents required by your government. Please show substitutes. They will not be used unless absolutely necessary. Minimum order $5. Air parcel post to destinations outside this country is costly but well worth it to carry fresh vigorous cuttings to you. Please allow $2 for shipping costs, and if postage exceeds this amount a bill will be sent for the difference.

HYBRIDIZERS SYMBOLS: A-Arndt, Annalee-Annalee Violetry, BN-Bob Neprash, BM-Bea Mills, BB-Bud Brewer, Ch-Champion, DI-Doris Intile, FG-Fischer Greenhouses, Fr-Frathel, G-Geis, GK-G.
